

# Outdoor Air Pollution and Child Health

There is compelling evidence that exposure to Air Pollution damages the health of children in numerous ways.

Acute Lower Respiratory  
Infections (ALRI),  
including Pneumonia

Asthma

Adverse birth  
outcomes

Impaired lung  
function

Compromised  
neurodevelopment

Childhood  
cancers

Otitis Media  
(Middle ear  
infection)

Childhood  
obesity

Increased infant  
mortality
